BENNINGTON RESCUE VEHICLE

This is a picture of the new rescue vehicle which has been purchased by the Bennington Fire Department using their own funds and without calling on the town for any appropriation.

This is an example of the reason that the town and the town officials take great pride in their Fire Department.

TOWN WARRANT THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Bennington in the County of Hillsborough in said State, qualified to vote:

You are hereby notified to meet at the Town Hall in said Bennington on Tuesday, the 8th of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. Are you in favor of the adoption of the Zoning Ordinance as proposed by the Planning Board? (Ballot Question)

Additionally, pursuant to RSA 39:2-a and the vote of the Town at the March 4, 1975, Annual Meeting, you are hereby notified to meet at the Town Hall in said Town on Thursday, the 10th day of March, 1983, at seven o'clock in the evening to act upon the following subjects:

3. To see if the Town will (a) appropriate a sum of money for (1) the construction of sewers and sewerage facilities including a force main and appurtenant structures to connect such facilities to the Town of Antrim sewerage treatment plant, (2) the acquisition of land, options or easements required for such facilities; (b) authorize the Selectmen to contract for federal or state aid in relation to such facilities; (c) determine whether any appropriation under this article shall be raised by borrowing or otherwise, or (d) take any other action in relation to the foregoing.

The Selectmen will propose that consideration of this article be deferred to adjourned session of this Town Meeting in order that the Town may consider the design engineering study and other information not presently available.

4. To see if the Town will (a) appropriate a sum of money for design engineering of a sewerage force main and appurtenant structures to connect the proposed sewer collection system to the Town of Antrim sewerage treatment plant, (b) authorize a contract between the Town and the Town of Antrim providing for sewerage to be received at the Town of Antrim sewerage treatment plant, (c) authorize the Selectmen to contract for federal or state aid in relation to such design engineering, (d) determine whether any appropriation under this article shall be raised by borrowing or otherwise, or (e) take any other action in relation to the foregoing.

5. To see if the Town will vote (a) to adopt the provisions of the Revised Statutes Annotated, Chapter 149-I (Supp., 1981) relative to the construction and maintenance of sewers, (b) to establish pursuant to such statute a Board of Sewer Commissioners, (c) to designate the present Board of Water Commissioners as the Board of Water and Sewer Commissioners, or (d) take any other action in relation to the foregoing.

6. To see if the Town will vote to (a) participate in a solid waste management district as required by the provisions of Revised Statutes Annotated, Chapter 149-M (Supp., 1982), (b) appropriate a sum of money for an engineering survey of the present landfill facility to determine if the Towns of Antrim, Bennington and Francestown qualify as a separate solid waste management district using such facility, (c) accept a portion of the cost of such engineering survey from the Towns of Antrim and Francestown or others, (d) authorize such agreements or amendments to the sanitary landfill agreement as may be required by such statute, or (e) take any other action in relation to the foregoing.

7. To see what sum of money the Town will raise and appropriate for highways and bridges.

8. To see if the Town will vote to accept State Aid for Class V roads and raise and appropriate money for the same. The Town must raise \$332.73 and the State will contribute \$2,218.21.

9. To see if the Town will vote to authorize the Selectmen to borrow such sums of money as may be necessary in anticipation of taxes.

10. To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by tax collector's deed by public auction (or advertised sealed bid) or in such other manner as determined by the Selectmen as justice may require.

11. To see if the Town will vote to accept legacies and gifts to the Town in trust or otherwise by any individual or individuals, or take any other action relating thereto.

12. To see if the Town will vote to transfer any balance in either the Fire Department appropriation or the Water Department appropriation to a Capital Reserve Fund to be used towards the purchase of equipment or plant in the future.

13. To see if the Town will vote to appropriate and authorize withdrawal from the Revenue Sharing Fund for use as setoffs against budget appropriations in the amount indicated; and further to authorize the Selectmen to make pro rata reductions in the amounts if estimated entitlements are reduced, or take any other action hereon.

Appropriation	Estimated Amount
Police Department	\$ 3,500
Fire Department	3,500
Street Lighting	2,500
Parks and Playgrounds	2,500
	<hr/>
	\$12,000

14. To see if the Town will vote to authorize the Selectmen to apply for, negotiate for, contract for, accept and to do all other things necessary to obtain such Federal, State or other assistance (financial or otherwise), or take any other action relating thereto. (Proposed by Selectmen)

15. To see if the Town will vote to increase the annual salary for the town clerk from \$450 to \$750 and to increase the salary for the tax collector from \$450 to \$750 and raise and appropriate money for the same. (Proposed by Selectmen)

16. "Shall the citizens of Bennington ask members of the New Hampshire Congressional delegation to support or co-sponsor a resolution in the U. S. Congress to: Request the President of the United States to propose to the Soviet Union that the United States and the Soviet Union adopt a mutual freeze on the testing, production, and deployment of nuclear weapons and of missiles and new aircraft designed primarily to deliver nuclear weapons, with verification safeguards satisfactory to both countries." (By Petition)

17. To see if the Town will vote to go on record in support of immediate actions by the Federal Government to control and reduce acid rain which is harmful to the environment and economy of Bennington and to the health and welfare of the people of Bennington.

These actions shall include: 1 — Reduce by at least half the major cause of acid rain, sulfur dioxide emissions, by the year 1990, and 2 — Conclude negotiations and adopt a treaty with the government of Canada that will commit both nations to this same goal.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional Delegation and to the President of the United States. (By Petition)

18. To see if the Town will vote to authorize the Selectmen to establish, with the Selectmen of Antrim, a recycling commission composed of five (5) members (3 from Antrim and 2 from Bennington) whose purpose shall be to initiate a voluntary recycling program at the sanitary landfill facility, or take any other action in relation thereto.

19. To see if the Town will raise and appropriate the sum of \$500 for police department pagers. (Proposed by Police Dept.)

20. To see if the Town will raise and appropriate the sum of \$1,000 to cover the cost of building materials in order to provide for the construction of the separate office for the police dept. in the basement of the Town Hall. (Proposed by Police Dept.)

21. To see if the Town will appropriate and raise the sum of \$900 to purchase radios for the fire dept. The old radios will be transferred to the highway dept. (Proposed by Fire Dept. and Selectmen)

22. To see if the Town will raise and appropriate the sum of \$3,200 to purchase a replacement sander for the highway dept. (Proposed by Selectmen)

23. To see if the Town will raise and appropriate the sum of \$1,500 for the purchase and erection of a new backstop at the little league diamond at Memorial Park. (Proposed by Recreation Committee)

24. To see if the Town will raise and appropriate the sum of \$650 to purchase a map filing cabinet for proper storage of all town and planning board maps. (Proposed by Selectmen)

25. To see if the Town will authorize the establishment of a new capital reserve fund for the eventual replacement of the Town truck and to raise and appropriate the sum of \$5,000 for that purpose. (Proposed by Selectmen)

26. To see if the Town will vote to adopt a plan for extending to employees of the Town the benefits of Title II of the Federal Social Security Act (Old Age, Survivors, Disability and Health Insurance) as authorized by Chapter 101 of the Revised Statutes Annotated amended by Chapter 302 and 322 of the Laws of 1955 and to raise and appropriate the sum of \$3,200, to defray the Town's share of the cost thereof.

27. To see if the Town wishes to exclude from the plan services in any class or classes of positions filled by popular election.

28. To see if the Town wishes to exclude from the plan services performed by election officials or election workers for a calendar year in which the remuneration paid for such service is less than \$100.

29. If a plan for Social Security coverage is adopted, to see if the Town will authorize the Selectmen to execute on behalf of the Town the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the Town will designate the Town Secretary as the officer to be responsible for the administration of the plan.

30. To see if the Town will adopt a building ordinance providing for the regulation of building development within the flood plain as required by State and Federal regulations in order to qualify the Town for federal flood insurance.

31. To see if the Town will vote to discontinue Old Coach Road from Blanchard's farm to the Francetown town line. (Proposed by Selectmen)

32. To see what sum the Town will raise and appropriate to pay the normal operating costs of the Town (as set forth in the Town Budget), or take any other action thereto.

33. To hear the reports of Committees and act thereon.

To transact any other business that may legally come before this meeting.

Given under our hands and seal this fourteenth day of February, in the year of our Lord nineteen hundred and eighty-three.

SELECTMEN'S REPORT

The Town faces many important issues this year and we would sincerely hope that there would be a large turnout at Town Meeting. Let us discuss with you these various important items which must be decided this year.

Federal Flood Insurance Zoning

The Federal Government requires this year that the Town update its flood building regulations within the flood plain and in order to do this it is necessary that a minimum zoning be established as a legal basis. We have had two hearings and we recommend to you a zoning ordinance which is the absolute minimum requirements by State and Federal authorities in order that the Town qualify for Federal Flood Insurance. This qualification not only is vital to those who live within the flood plain, because without it new construction or reconstruction cannot legally qualify for a mortgage, but in addition the Town's Water Pollution Treatment Project, which must go forward quite soon, cannot qualify for 75% Federal Aid unless the Town has qualified for Federal Flood Insurance.

The ordinance suggests that the Town be divided into two zones, (1) the flood plain and (2) all other. The regulations and building requirements required by the Federal Government would apply only to the flood plain zone. None of these requirements would apply anywhere else in Town. We strongly urge that you vote on the ballot at Town Meeting to accept this proposal because the consequences to the Town would be very, very serious if we do not qualify for Federal Flood Insurance and, therefore, ultimately for Federal Aid on our water pollution collection and treatment project.

Please note that the term "floodway" which appears in the proposed zoning ordinance can be confusing. It applies only to the river channel and the prohibitions are intended to keep it open to carry off flood waters.

Water Pollution Collection and Treatment Project

Now that Antrim has completed its Pollution Collection and Treatment Project, it turns out that their capacity as versus the amount of flowage is greatly in excess of their needs. Your Selectmen have been negotiating with the Antrim Sewer Commissioners to see whether a mutually advantageous arrangement might not be arrived at whereby the Town, instead of proceeding with the treatment system of a septic tank and leach fields, would run a force main to Antrim and use their treatment facility. In this negotiation we have developed what we feel is a very reasonable and low cost arrangement and one which will, over the years, turn out to be more efficient, less costly and, most important of all, much more trouble free. An agreement with the Town of Antrim to proceed along these lines will be presented to the voters for their approval and the Selectmen very strongly recommend that the Town accept this agreement. In addition, it will be necessary to authorize the necessary redesign engineering which should not be too major a cost item.

Your Selectmen are convinced that this solution to the Town's collection and treatment problems is by far superior to that originally contemplated and, because of excess capacity available in Antrim, is one that can be of mutual advantage to both towns.

Landfill

The State recently passed legislation whereby all cities and towns within the State must join a Solid Waste District which would be responsible for the necessary planning, overseeing and disposal arrangements on a regional basis. We already have a very satisfactory landfill arrangement with the towns of Antrim and Francetown and we jointly are going to attempt to qualify with the State as a separate Solid Waste District unto ourselves. We have a proposal from Dufresne-Henry, the engineering firm that was responsible for our Water Improvement and Expansion Project, covering the necessary steps which would have to be taken in order to satisfy the State requirements and all three towns are recommending to their voters that we appropri-

ate the necessary funds in order to achieve this qualification. Otherwise, we may well be assigned to a larger district and could be subjected to substantial pressure to expand our landfill operation to include other towns in the area and be billed for the cost of a bureaucracy over which we have no control. We strongly recommend that the voters authorize the necessary engineering study so that we can qualify with the State.

Town Water Improvement Project

The Town Water Improvement Project was completed during the year with Farmers Home Authority grants which meant that no further town costs were involved and actually the grants covered the interest cost during the temporary loan of \$9,645. The project was successfully completed and the Water Commissioners and the Selectmen were more than satisfied with the engineers and the contractors who did the project.

Roads and Bridges

The Town's roads have been well maintained during the year, but it is quite obvious that we must increase our tarring appropriations if we are to continue to maintain them well. In addition, we have some bridges in town which require work, the major project being a bridge on old Route 202 near the paper mill. This repair/replacement project will be of a major nature but will qualify for State Bridge Aid. A Warrant item to this effect will be presented to the voters.

The old 4x4 truck became useless to us this year without a major expense to put it in usable condition. It was decided to make these repairs, which were substantial — to mount the sander on this truck in place of the dump body, to have an all-purpose vehicle where plowing and sanding of big storms could be accomplished in one operation. It has worked out very satisfactorily and hopefully this unit will give us another few years of useful service.

At the point it becomes necessary to replace this unit, which would be a major capital expense, we should seriously consider the viability of a town this size owning this kind of equipment and possibly contracting for this kind of service instead of owning the equipment necessary for the job. We are exploring these possibilities.

Fire Department and Police Department

These departments continue to provide excellent service and, as has been the case for many years, the Fire Department have financed themselves many improvements and equipment additions.

Financial

Your Selectmen become more and more concerned with the burdens which are being placed on the property taxpayer. Last year's tax rate did not increase as much as we feared because of a substantial saving against the original Conval budget. However, continuing reduction in State Aid as well as further programs formerly funded in whole or in part by the State and Federal Governments which now put heavy burdens on the towns inevitably will create much difficulty for us. An example of this type of uncontrollable expense is illustrated by the large increase in welfare and old age costs for 1982 — a level of expense that we have never remotely seen before. In the larger sense, the Town is in excellent financial condition with very little longterm debt. However, the continued financial problems of the State and the delays in payment of State Aid to the towns have meant that it has been more and more difficult to finance the month-to-month operations of the Town.

Semi-Annual Collection of Property Taxes

As indicated earlier, the financial burdens are becoming heavier and, at the same time, the Town is having more and more difficulty financing its month-to-month operations. We were not able to pay off the loans from the bank made in anticipation of the collection of taxes until the very end of December and it becomes obvious to us that the semi-annual collection of prop-

erty taxes is absolutely necessary. The Selectmen have, by statute, the authority to make this decision, but we recognize that it will create a burden on some of the citizens. We have, therefore, decided that we should announce at this time that in 1984 the Town will go to semi-annual collection of taxes as being an absolute necessity to maintain a sound financial operation.

Thank You

The Board would like again to express its appreciation to all of those who serve the Town on committees, boards and other town offices, without whose devoted service it would be impossible to provide for the efficient operation of your Town.

PLANNING BOARD REPORT

A zoning ordinance will again be voted on by the townspeople this year. Federal regulations concerning flood plains make both a zoning ordinance and a building code for the flood plain zone a necessity on this year's ballot. The proposed zoning ordinance is the minimum required to assure that the town is "in compliance" with all flood plain regulations, allowing us to participate in revenue sharing and flood insurance programs. Without these regulations, many programs and mortgage loans on property in the flood plain zone would not be available.

During the year, the subdivision regulations have been revised. This was necessary to bring them into compliance with the latest state and federal regulations. Changes were also made in lot size and frontage requirements.

There were only five minor subdivisions approved (three or four lots) during the year, 1982.

Wayne Roy,
Chairman

HEALTH AND WELFARE DEPARTMENTS

I am pleased to report that one way or another our Town welfare department has been relieved of the heavy state-mandated financial burden we have been forced to carry for the past three to four years. Please note the substantial reimbursement in 1982. Other than some unavoidable direct relief, I am looking for a financially better 1983.

The health department has been quiet, but we do have many septic tank and sewerage problems. The state is expecting us to conform with all regulations in this area, and again I ask you to cooperate by coming to us for advice and assistance.

Direct local relief	\$ 838.88
Operating expenses	151.30
State-mandated	<u>14,475.00</u>
Total Expenditures 1982	15,465.18
Reimbursement plus interest and legal expenses	\$21,730.00

Barbara Huntley
Health and Welfare Officer

Federal Emergency Management Agency
Washington, D.C. 20472

Certified Mail
Return Receipt Requested
January 20, 1983

Honorable Charles F. Lindsay
Chairman of the Bennington Town
Board of Selectmen
Hillsborough County
Town Hall
Bennington, New Hampshire 03442

Dear Mr. Lindsay:

This is to remind you that:

- A Flood Insurance Rate Study establishing base flood elevations has been completed for your community;
- the Flood Insurance Rate Map will become effective on April 18, 1983;
and
- by that date, your community must have its legally enforceable flood plain management measures, as required by Section 44 CFR 60.3(d) of the National Flood Insurance Program (NFIP) regulations, approved by our Regional Office Staff.

If you should encounter difficulties in enacting the measures, we urge you to call the Chief, Natural and Technological Hazards Division of the Federal Emergency Management Agency in Boston, at (617) 223-2616. We realize that your community may have already contacted our Regional Office and may now be in the final adoption process, or you may have recently adopted the required measures. Whatever the current status is relative to your community, please consider this a reminder that you have three months left in which to adopt the required flood plain management measures, and have them approved by our Regional Office staff. The address of the Regional Office is J.W. McCormack Post Office and Courthouse Building, Room 462, Boston, Massachusetts, 02109.

Your measures will be reviewed upon receipt, and our Regional Office will notify you of approval or of deficiencies that might exist.

Please consider this your formal notice. As a matter of policy, I must inform you that failure to have your flood plain management measures approved by our Regional staff by the established deadline will result in your community's suspension from the NFIP.

Sincerely,
/s/ William S. Bivins
Richard E. Sanderson, Chief
Natural Hazards Division
Office of Natural and Technological Hazards

ZONING ORDINANCE

In accordance with RSA paragraph 31:63a a first hearing was held at the Town Hall on January 4, 1983 at 7:30 p.m.

Second public hearing was held on February 1, 1983 at 7:30 p.m. at the Town Hall.

ARTICLE I — Establishment

Section 1. Title. This ordinance, together with all amendments thereto, shall be known as the "Zoning Ordinance of Bennington, New Hampshire."

Section 2. Districts. For the purpose of this ordinance, the following Districts are established within the Town of Bennington:

1. Flood Plain District
2. General District

ARTICLE II — Flood Plain District

Section 1. The Flood Plain District includes all special flood hazard areas designated as Zone A, and Zones A1, A2, A5, A8 and A9 on the Bennington Flood Insurance Rate Maps (FIRM), and the Flood Boundary and Floodway Maps dated April 18, 1983, on file with the Town Clerk, Planning Board, and Building Inspector. These maps, as well as the accompanying Bennington Flood Insurance Study dated October 18, 1982, are incorporated herein by reference.

Section 2. "Regulatory Floodway" means the channel of a river or other water-course and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Section 3. Development Regulations.

In the Regulatory Floodway, designated on the Flood Boundary and the Floodway Map, the following requirements shall apply:

- a. The placement or location of mobile homes is prohibited.
- b. Within the Regulatory Floodway, any development or encroachment (including fill) which would result in any increase in flood level during the base flood discharge is prohibited.

For the purpose of this part, "development" is defined to mean "a man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations."

ARTICLE III — General District

Section 1. The General District includes all land in the Town not included in the Flood Plain District.

Section 2. Any lawful use of property is permitted in the general district.

ARTICLE IV — Penalties

Any person, firm or corporation which violates any of the provisions of this Ordinance shall be guilty of a violation, and shall be punishable by a fine of not more than ten dollars (\$10.00). Each day during which a violation is committed may be deemed to constitute a separate offense.

ARTICLE V — Validity

The validity of any provision of this Ordinance shall not affect the validity of any other provision or the validity of the Ordinance as a whole.

ARTICLE VI — Effective Date

This Ordinance shall become effective upon its passage.

**BUILDING ORDINANCE WHICH IS REQUIRED IN ORDER TO QUALIFY FOR THE
FEDERAL FLOOD INSURANCE PROGRAM AND WHICH WILL APPLY ONLY TO
THE AREA OF THE TOWN DESIGNATED AS THE FLOOD PLAIN**

Below you will find a building ordinance which is required by the State and Federal Government in order to ensure that all new construction within the flood plain area will be of a nature that will minimize possible flood damage and protect life and property to the greatest extent.

Please note that these building requirements are specifically limited to the flood hazard area of town (see Section IX). While lengthy and detailed, all they really require is accepted construction safeguards for owner protection.

The zoning ordinance provides the legal basis for this building ordinance and *both* are required for Federal acceptance to qualify in the Flood Insurance Program. They must be adopted as printed, and have the full endorsement of the Planning Board and the Selectmen. If you really study them we think you will find, as we did, that they are not designed to be restrictive but protective and consonant with good building practice.

**BUILDING ORDINANCE
FOR THE
TOWN OF BENNINGTON, NEW HAMPSHIRE**

SECTION I Title

These regulations shall be known and cited as the Building Ordinance of the Town of Bennington, New Hampshire, and shall be construed to insure public safety and health insofar as they are dependent upon building construction.

SECTION II Application for Permits

Applications for permits shall be accompanied by a copy of plans of sufficient clarity to show the location, nature and character of the work to be performed. The Building Inspector may waive the requirement for filing plans when the work involved is of a minor nature or the location of the work to be performed is not within a flood hazard area as defined in Section IX herein.

SECTION III Performance

All work performed under building permits shall conform to the plans and specifications filed with the application.

SECTION IV Board of Adjustment

An applicant for a building permit whose application has been refused by the Building Inspector, or parties who have been ordered by the Building Inspector to incur expense in connection with construction, or parties aggrieved by a decision of the Building Inspector on a matter left by this Ordinance to his approval or discretion, may appeal from such action by filing within fourteen days from date of refusal, order or decision a written appeal claim, signed by the party aggrieved or his agent, with the Zoning Board of Adjustment. If the refusal, order or decision of the Building Inspector is affirmed by the Board of Adjustment, the ruling of the Building Inspector shall be final. If the action of the Building Inspector is modified or annulled, the Building Inspector shall issue a permit or order in accordance with the decision of the Board. The Board of Adjustment shall hold public hearings on all appeal claims under the foregoing and shall give notice thereof in the manner required for appeals.

SECTION V Validity

The invalidity of any section or provision of this Ordinance, hereby adopted, shall not invalidate other sections or provisions thereof.

SECTION VI Fees for Permits

A fee of shall be charged for all permits issued under this Ordinance.

SECTION VII Enforcement

Upon any well founded information that this Ordinance is being violated, the Building Inspector or the Board of Selectmen shall, on their own initiative, take steps to enforce the provisions of this Ordinance by seeking an injunction in the Superior Court or by any other appropriate legal action. Whoever violates any of the provisions of this ordinance shall be punished on conviction by a fine not exceeding \$50.00 for each day of delay in correcting the violation.

SECTION VIII Effective Date

This Ordinance as amended shall become effective upon its passage and adoption by action of a regular Town Meeting.

SECTION IX Flood Hazards

The following regulations shall apply to all lands designated as flood hazard areas by the Federal Emergency Management Agency (FEMA) in its "Flood Insurance Study for the Town of Bennington, N.H." dated October 18, 1982, together with the associated Flood Insurance Rate Maps and Flood Boundary and Floodway Maps of the Town of Bennington, N.H. and dated April 18, 1983, which are declared to be a part of this code by reference. Said maps and Flood Insurance Study are on file with the Town Clerk, Planning Board, and Building Inspector.

- a. All proposed development within the Town shall require a permit so that the Town may determine whether such a development is proposed within a flood hazard area. The term "development" is defined to mean "any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations."
- b. The Building Inspector shall review all building permit applications for new construction or substantial improvements (meaning any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either (a) before the improvement or repair is started, or (b) if the structure has been damaged, and is being restored, before the damage occurred) to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a location that has a flood hazard any proposed new construction or substantial improvement (including prefabricated and mobile homes) must
 - (i) be designed (or modified) and anchored to prevent flotation, collapse, or lateral movement of the structure;
 - (ii) use construction materials and utility equipment that are resistant to flood damage; and
 - (iii) use construction methods and practices that will minimize flood damage.
- c. In flood-hazard areas, new or replacement water supply systems and/or sanitary sewage systems shall be located, designed and will be constructed to minimize or eliminate infiltration of flood waters into the systems and discharge from the systems into flood waters. On-site waste disposal systems shall be located so as to avoid impairment of them or contamination from them during flooding.
- d. The applicant shall furnish and the Building Inspector shall maintain for public inspection

and furnish upon request, any certification of flood-proofing, and information on the elevation (in relation to mean sea level) of the level of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement, and if the structure has been floodproofed, the elevation (in relation to mean sea level) to which the structure was flood-proofed.

- e. The Building Inspector shall review proposed development to assure that all necessary permits (including New Hampshire Water Supply & Pollution Control Commission (WSPCC) and Water Resources Board) have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments 1972, 33 USC 1334. It shall be the responsibility of the applicant to certify these assurances to the Building Inspector.
- f. In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Special Board on Dredge and Fill and the Office of State Planning and submit copies of such notification to the Building Inspector and the Federal Emergency Management Agency. Further, the applicant shall be required to submit copies of said notification to adjacent communities, as determined by the Building Inspector. Within the altered or relocated portion of any watercourse, the applicant shall assure to the Building Inspector, that the flood carrying capacity of the watercourse is and will be maintained.
- g. Mobile homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties to ground anchors. Specific requirements shall be that
 - (i) over-the-top ties be provided at each of the four corners with two additional ties per side at intermediate locations and mobile homes less than 50 feet long shall require one additional tie per side;
 - (ii) frame ties be provided at each corner with five additional ties per side at intermediate points and mobile homes less than 50 feet long shall require four additional ties per side;
 - (iii) all components of the anchoring system shall be capable of carrying a force of 4,800 pounds; and
 - (iv) any additions to the mobile homes be similarly anchored.

The following requirements shall apply in specific zones designated on the Flood Insurance Rate Maps referred to above:

- h. IN UNNUMBERED "A" ZONES, the Building Inspector shall obtain, review, and reasonably utilize any base flood elevation data available from a Federal, State, or other source, until such other data has been provided by FEMA, as criteria for requiring that
 - (i) all new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the base flood level, and
 - (ii) that all new construction and substantial improvement of non-residential structures have the lowest floor (including basement) elevated or floodproofed to or above the base flood level.
- i. IN ZONES "A2, A5, A8 and A9" for new construction and substantial improvements, the Building Inspector shall require that:
 - (i) Residential structures have the lowest floor (including basement) elevated to or above the base flood level.
 - (ii) Non-residential structures have the lowest floor (including basement) elevated to or above the base flood level; or together with attendant utility and sanitary facilities, be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.
- j. IN ZONES "A2, A5, A8 and A9", where floodproofing is used in lieu of elevation, a

registered professional engineer or architect shall certify to the Building Inspector that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood.

- k. IN ZONES "A2, A5, A8 and A9", for new, substantially improved, or expanded mobile home parks, and for mobile home placement not in existing mobile home parks, the Building Inspector shall require that:
 - (i) Stands or lots are elevated on compacted fill or on pilings so that the lowest floor of the mobile home will be at or above the base flood level;
 - (ii) Adequate surface drainage and access for the hauler are provided; and
 - (iii) In the instance of elevation on pilings:
 - 1. lots are large enough to permit steps;
 - 2. piling foundations are placed in stable soil and are no more than ten feet apart; and
 - 3. reinforcement is provided for pilings that extend more than six feet above the ground level.
- l. The term "floodproofed" is defined to mean "watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy."

SECTION X Appeals

Should the Board of Adjustment consider a petition for a variance from the regulations set forth in the Flood Plain District of the Zoning Ordinance or Building Code, the following procedures will be adhered to:

- 1. The Board of Adjustment shall only issue a variance upon:
 - a. a showing of good and sufficient cause, and
 - b. a determination that failure to grant the variance would result in exceptional hardship to the applicant, and
 - c. a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws; and
 - d. a determination that the variance is the minimum necessary, consider the flood hazard, to afford relief.
- 2. Variances may be issued for structures to be erected on a lot one-half acre or less in size, if otherwise permitted by law, contiguous to and surrounded by lots with existing structures constructed below the base level.
- 3. A variance shall not be issued within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.
- 4. If a variance is granted, the Board of Adjustment shall notify the applicant in writing over their signature that:
 - a. the issuance of such a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage; and
 - b. such construction below the base flood level increases risks to life and property.
- 5. The Board of Adjustment will maintain a record of all variance actions, including justification for their issuance and report such variances issued through the Annual Report submitted to the Federal Emergency Management Agency.
- 6. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed in the National Register of Historic Places, without regard to the procedures set forth above.

TOWN HALL

As you can see from your 1981 town report, I was given \$11,000 for a budget for the Bennington Town Hall. In 1982 I was cut down to \$7,500, probably thinking that the improvements at the building of insulation and installing combination windows, also work in the three furnaces would lessen the expense of fuel. However, a new budget committee was appointed and new bylaws were written. The bylaws called for the janitor to inspect and clean after use of any part of the building. This, of course, entailed more work and therefore more money and with an increase of hourly pay.

There has been work done on the hall — floors refinished and repairing of various things when necessary.

In January 1982 new floor covering was installed in the ladies' room. Painting was done in the Old Fire Hall and the floor refinished and the same done in the Selectmen's room.

Pointing up underpinning on the town hall was also done. New railings were made and voting booths repaired.

I feel that the Town Hall is now in good condition except for a possible paint job outside.

Respectfully,
Dorothy M. Traxler

BENNINGTON POLICE DEPARTMENT 1982

The Police Department would again like to thank the citizens for their cooperation over the past year. All special officers were certified this past year finishing within the top 5% of the class held in Greenfield. This and the hands on experience they all have makes them all very capable of handling any and all problems they may encounter. I urge everyone who may have or see a police problem to call anytime day or night.

In a budget tightening move we have left the Hillsboro Police Dispatch and gone to Hillsborough County Dispatch at a considerable savings. County offers basically the same service and has proved excellent since the changeover in mid-December.

Calls were down 71 from 1981. The following is a breakdown of the calls:

Phone Calls to the Police Department	1,002
Calls for Service	681
Dog/Animal	83
Motor Vehicle	113
Fires/Rescues Assisted	41
Disabled Motorists Assisted	26
Domestic Disturbances	15
Noise Complaints	64
Missing Persons	6
Vacant Property Checks	16
Snowmobile Complaints	4
Theft Complaints	29
Alarms Answered	14
Assaults	3
Trespass Complaints	17
Criminal Mischief Complaints	17
Burglaries — 5 Solved	6

Miscellaneous Complaints	62

Of all the complaints the following arrests were made: 10 Felony, 64 Misdemeanor, 31 Driving While Intoxicated, 259 Warnings, and 244 Citations issued.

We all hope to assist you with any service you request throughout 1983.

Respectfully submitted,
William A. MacKenzie III
Chief of Police

BENNINGTON HIGHWAY DEPARTMENT

I wish to thank all of the people who voted for me last March. I wish also to thank those who worked with me these past ten months, your help was very much appreciated. I believe that working together is the answer to a good job done. All tarred roads that were starting to break up were cold patched, and a few roads were tarred this summer. Dirt roads were rebuilt where necessary. We put in a rail fence and a wire fence on the Mill road. Some storm ditches were cold patched, and all roads had the brush cut. Many other improvements were undertaken and finished to the best of my ability. The town equipment is in good repair, so 1983 should be even better with your help and understanding.

Respectfully Submitted,
Sidney A. Huntington
Bennington Highway Dept.

BENNINGTON RECREATION

The Bennington Recreation would like to thank everyone who has worked on the various committees to help make 1982 a successful year.

The summer programs at the town beach were very successful. I would like to thank Kevin Magoon and Norman Mercier for helping me resect the town beach with new posts and benches. Also, I would like to thank Dick Watterson for donating his time and his loader for this project at the beach. Another thank you to John Paradise for donating his time to build the new raft which will be in the water next year.

Ken McFall was the life guard at the town beach and was assisted by Pat Chicoine and Joan Schnare. Swimming lessons were held for all children and as usual the highlight of the program was "Water Fun Day".

The Little Red Wagon, a theatre group from UNH, provided three afternoon programs which were enjoyed by many.

This year the Bennington Recreation and the Little League Committee worked together on improving the baseball field at Sawyer Memorial Park. It was rotatilled and reseeded. Our goal for the coming year is to replace the present backstop, which is in very poor condition, with a new one. The backstop is one of the few major expenses that will occur in redoing the Little League ballpark. I would like to thank Paul Lavoie, Scott Liljeberg, and John MacNutt for all of their time and effort in improving and maintaining the ball field.

Once again the Community Christmas Party was very successful. Pierce School children entertained everyone with songs. As usual, they did an excellent job. This was followed by a community sing-along. Then Santa came for his annual visit and he passed out gifts to all the children. Refreshments were served and it was an enjoyable evening for all. Members of the Bennington Recreation for the year of 1983 are: Jean Cernota, Pat Chicoine, Christine McClure, Carrie Warren, and Joan Schnare. If you have any questions or suggestions, please feel free to contact any of the above or me.

Joseph Cuddemi

REPORT OF THE TRUSTEES OF THE G.E.P. DODGE LIBRARY

During 1982 two complete sets of draperies were added to the north and south walls of the stack room of the library in an effort to cut down on fuel consumption. Also we shifted to Rymes Fuel Oil Company because we could obtain a better price per gallon of oil.

As a culmination of the observance of the 75th anniversary of the library, Selectman Erving LeCain gave a brief history of the library at the May 19th Pierce School Prize Speaking Contest. He emphasized the relationship between the library and the town especially in regard to the increased financial support the town has rendered during the years. Also at the annual Pierce School event it was announced that the children of the school were giving four books to the library in memory of Carol Clark, a former trustee, who died in office and was well liked by the students and also by the teaching staff.

We have continued to subscribe to the McNaughton book service which seems to offer a good selection of books for our patrons but we cancelled the Avalon book order since the circulation of those books was so poor and so we felt that the \$19.50 per month expense could well be used toward something commanding more interest. Mrs. Ayers, our librarian, has gone to Concord on several occasions to preselect books from the State Library supply for small town libraries.

The Trustees appreciate the continued interest and support of the Town and volunteers are always welcome.

Paul T. Kyte
Jean T. Watts
Thelma W. LeCain

New lined drapes have been installed this year in our book room to conserve on heat. In conjunction with the paper that was installed in '81 it improves the appearance of the room immensely.

We have had several nice people donate replacement encyclopedias for the children's room to replace those that have been lost over the years. Thank you again.

The Bookmobile has resumed its semi-annual delivery of books and has made it possible for us to select the books people have requested.

The increasing use of the children's facilities has greatly increased this year. This has pleased us very much.

Respectfully submitted,
Helena Ayers, Librarian

ANTRIM-BENNINGTON RESCUE SQUAD

The Antrim-Bennington Rescue Squad responded to 131 calls in 1982, 91 in Antrim, 33 in Bennington and 7 for Mutual Aid. Of these calls, 17 were automobile accidents involving 24 patients. In the past year the Ambulance personnel have been furthering their education in the field of emergency medicine and rescue procedures to better serve and protect you, the community. We wish to thank you for your continuing support.

BENNINGTON FIRE DEPARTMENT

The Bennington Fire Department thanks all of its fellow towns people for their help and support shown us at our various fund raising activities. Because of your support we were able to obtain, with our own funds, a new rescue vehicle, a "gator" which is an air powered jaws, and most recently two ice rescue suits.

We will continue our fund raising activities throughout the year. Our biggest event this summer — possibly in July — will be our auction. Please keep us in mind if you are thinking of discarding some items.

Looking towards the more serious side of the fire department we answered a total of 80 calls during the past year. Following is a break down of the calls:

FIRES	RESCUES
Chimney	Medical Emergencies
Vehicle	Car Accidents
House	Snowmobile Accidents
Boiler Trouble	Boating Accident
Brush	<u>32</u>
Electrical	
Appliance	
False Alarms	
Tires	
Standby, No Power	
Assist, Search Party	
Mutual Aid - Hancock	
Francestown	
Antrim	
<u>48</u>	

As always, may we remind you that you are all most welcome to stop in and visit your fire department anytime you see us there.

Respectfully Submitted,
John French, Chief
Donald Taylor, 1st Deputy
Bruce Edes, 2nd Deputy

RECYCLING COMMITTEE REPORT 1982

The Bennington Recycling Committee has held numerous monthly meetings in conjunction with the Antrim Recycling Committee. The past year's objective was to establish the goal of orienting our citizens to the future need of recycling some of society's disposable materials.

After much research, we propose starting a small program of recycling bottles and other glass on a voluntary basis. With the emphasis on working out a system costing the least amount to the taxpayers, we found a Manchester concern who will supply barrels for the collection of glass for a returnable deposit of less than \$200.00 (two hundred dollars). Any monies created from this "infant" project can be re-invested in developing a more efficient and extensive recycling program at the landfill.

A consensus of opinions with other recycling committees envisions the future need, and maybe demand, for recycling as our land becomes scarcer and our society continues its "throw away" policies. The sooner we begin to prepare, our future options will be easier and less expensive.

PROPOSED SEWER AGREEMENT WITH ANTRIM

Some time ago your Selectmen became concerned regarding the proposed sewage treatment facility in Bennington, consisting of a septic tank and leach fields, because State approval of the engineering was still delayed. At the same time, they became aware that the Antrim Sewage Treatment Facility now installed and in operation was substantially oversized and had large excess capacity.

Discussions with Dufresne-Henry and with the State Water Supply & Pollution Control Board encouraged us to explore the possibility of a revision of engineering approach and combining with Antrim for sewage treatment. Dufresne-Henry did some preliminary engineering studies and based on those studies, which indicated that over the long haul the Town would find it much more economical to go this route, we requested and received approval from the State to propose this alternative.

The Selectmen have negotiated with the Antrim Sewer Commissioners and have reviewed the final proposed agreement with the Antrim Selectmen and this agreement has received the unanimous support of all concerned.

The agreement proposes that Bennington contribute 20% of Antrim's net (after Federal and State Aid) cost of the sewage treatment facility over the same period of time they are paying off their debt and at the same interest rate. In addition, it provides that for the next fifty years, with an option to renew for an additional twenty years, Bennington will be assured of treatment of its sewage and will share the treatment plant operation costs with Antrim on the proportion of our flowage and Antrim's flowage to that plant.

The Selectmen are pleased that an arrangement has developed which should be to the benefit of both towns, assuring us of long term future capacity and treatment and Antrim of a sharing of the costs of operation. An agreement to this effect will be presented to the voters at Town Meeting, together with a request for authority and appropriation for the necessary redesign engineering work.

Later in the year we anticipate bringing before the Town the request for necessary appropriations and bonding authority to undertake the total sewage project in hopes that the Town can qualify prior to the 1984 Federal fiscal year, at which time Federal Aid to such projects drops from 75% to 55%. The obvious savings if we can get in under the deadline are substantial and there can be no question but what this final link in the clean-up of the Contoocook River will have to be undertaken.

SCHOOL BOARD REPRESENTATIVE REPORT

This school year, 1982, has slipped by so rapidly that I must conclude that it is age that has made the year appear to pass so swiftly.

Pierce School is now one member of a Consolidated School System. At the Bennington Town Meeting, last year, I had the impression that many of our citizens were unfamiliar with various parts of the history of Pierce School.

The 50th Anniversary celebration of Pierce School in 1979 brought back memories of my school days. I was among the first students moving from the grammar school, located where the fire station now sets, into a Brand New School donated not to the School District but to the Town of Bennington by Arthur and Sally Pierce. For the past Fifty-odd years children of Bennington have enjoyed the comforts of this facility.

Let us now turn our attention to the present. There are 65 students in seven grades at Pierce School. These levels are as follows:

R/1	Readiness and Gr 1	Joan Schnare, Teaching Principal
	Readiness Aide	Carol Reed
2/3	Combination grades	Claudia Sysyn
4	Single level	Virginia Young
5/6	Combination grades	Brooks Rice
	Chapter 1	Priscilla Chicoine
	Chapter 1	Janet Rodriguez
Part Time Staff		
	Nurse	Babette Merchant, R.N.
	Art	Annarae Hunter
	Music	Dale Tyer
	Physical Education	Richard Hebert
	Matron	Margaret (Scottie) Aborn

One goal of education is to prepare children for life and its' activities. Today's society is on a health awareness program, jogging, etc., and this correlates with one of the goals of education, the Quality of Life. In order to teach health in the school the Berkley Health program for grades 1 to 4 has been introduced. Mrs. Schnare attended a Berkley Health two week course in New York dealing with the principles and teaching of health. She has since given workshops to our school staff.

Among other programs than Reading, Writing and Arithmetic are the plays that are produced yearly. These include a play presented in February by grades 4-5-6 students and another play produced in April by Readiness and grade 1 pupils. The "Ground Hog" winter Carnival is a program of recreation and fun.

Each program has its objectives. Mrs. Young's annual Hobby Show is held to aid a historical project. The monies derived from the Hobby Show are donated to Fort #4 Charlestown. Why not ask your child about this historical Fort?

Our mobile society has created the desire to hold the bi-annual Nature Program at Ocean Park, Maine. This is a five day Science program for pupils of the fifth and sixth grades.

The annual Prize Speaking Program, sponsored by the Town Library Committee, is presented during the month of May.

Let us not forget the Community Christmas Party held in conjunction with the Bennington Recreation Committee.

The School Staff and Students wish to express their appreciation for the free use of the Town Hall for their various activities.

Arrangements for the maintenance of the grounds of Pierce School for the summer has been formulated with the Sheltered Workshop of Peterborough.

The telephone company will be installing underground cables this spring in the Town of Ben-

nington. These cables will be laid on the inner side of the curb of the school. This will make available to the school a telephone home-to-school educational line for home-bound students.

Concluding this report I would like to say that I have enjoyed serving as your representative again this year.

Respectfully submitted,
Gladys E. Newhall, R.N.
BS, EdM, MRSH
